What is the Angel Fund?

The Angel Fund is a special sponsorship program that helps pay for alternative and complementary health care treatments to deserving individuals who are suffering from debilitating diseases such as Cancer, MS, Lupus, (and other illnesses) and who cannot afford these type of treatments on their own.

Your tax deductible contribution to the Angel Fund goes directly to those individuals with debilitating illnesses who need it now (not to a faceless organization). This way they immediately get the needed treatments to help them get better. Administrative costs for sponsoring fund raisers and maintaining eligibility standards is estimated at 15% of gross receipts. However, this money has been donated upfront by a long-time benefactor, and will be returned only after patients with immediate healthcare concerns are addressed.

MAKE A DIFFERENCE IN SOMEONE'S LIFE TODAY BY SPONSORING SOMEONE IN NEED
